ABSTRACT: This study Research this pray for know and analyze form protection law rice We as product indication origin in the District Konaw. Study writer use method study juridical empirical . Approach juridical (law seen as norm or das sollen), Approach empirical (law as reality social , cultural or das sein), because in study this used primary data obtained from field . Research results showing that : First Form Protection Law Rice Konawe As Product Indication Geographical Origin in the District Konawe , Protection Law Indication Geographical to our rice in the district Konawe not yet materialized optimally . this _ caused among other things because lack of information and outreach to Public about registration Indication Geographical , as well slow government in do management of the registration process and conditions about Indication Geographical in Indonesia that is felt still not enough clear . Start active Government Regency Konawe in push growth protection Indication Geographical to rice pulutmandoti nor products _ _ potentially Indication Geographical others in the District _ Konawe .

Keywords : Protection Law , Our Rice , Konawe.

I. INTRODUCTION

Constitution Number 20 of 2016 concerning Brands and Indications Geography also regulates about riches intellectual indication geographic. Indication geographical usually used a name associated trade, used or placed on the packaging something product and function show origin the place product and function for show origin the place production. Origin the place that hinted that quality product the very influenced by place original, fine that because nature nor method management produced goods or culture Public local. Produced goods the have mark economical. Indication geographical could form products agriculture , food and even goods crafts , during products the indicate name the place product the originate(Ayu 2016) . Something example for example quality fruit Malang apple, attached with area or geographic areanamely Malang (a geographical area that since before famous enough good for type plant apple).

Indication geographical in development could characteristic profitable. Itbecause could he upheld protection law for product typical possible area Upgrade mark add and push something area for Upgrade product featured. Protection indication geographical characteristic communal owned by the community certain and not by individuals, no like protection riches another intellectual, protection indication geographical characteristic permanent origin characteristic special and quality protected item still permanent same. On the side indication geographical term is also known indication origin that is mere sign show origin something goods or services.

The indication of origin is one of the intellectual property regimes that regulates the sign of a product so that it is clear that the special character of the product is essentially influenced by the place of origin. Sign this usually consists from name origin product, but also can consists from symbol or naming live pointing to the place origin product the. The place origin the often Becomes guarantee uniqueness and quality product, so with indicate the place origin, value economical product it also increases. kindly theoretical, potential product for protected regime indication origin form products could form goods craft hands and food During products the carry name the place origin and quality in a manner real influenced characteristics the place origin the.

Indication origin is a name associated trade, used in a manner oral or attached to the packaging something product and function showing origin the place product. Origin the place that hinted that quality product the very influenced by place origin, so product worth unique in mind society, in particular consumer, who knows that the place it has advantages special in produce something product. Example Carving Jepara, Batik Pekalongan, Sarong Mandar, Coto Makassar, and Sate Madura. Protection indication origin have a

number of aspects the law that made it very relevant for developed in Indonesia. Besides as regime riches intellectual still open to influence variety different cultures, an indication origin also appreciate linkages historical from something product and place origin and character ownership indication origin characteristic collective. aspects that make indication origin very potential for enabled as adhesive product to area origin, so protected product could permanent give profit economical tall for producer original area origin product the.

Protection indication origin this could lift well-being inside manufacturers something locality certain location secluded and only have alternative eye great livelihood little. (Sarianti 2014) Like case in the District Konawe there is rice konawe who became product indication origin. Rice this have potency as asset for commodity economy and improvement well-being Public Regency Konawe if managed with ok. Product indication origin as asset riches intellectual seen from context regional naturally have differences and features typical each in each area. Regency Konawe is one of them from that's all many districts in Southeast Sulawesi have predicate as "granary". Southeast Sulawesi " because is provider biggest rice so that is the place strategic for development production and marketing rice in Southeast Sulawesi. (Talib 2020)

Draft indication origin very tightly relation with area as owner product indication origin such, so government area district / city holdtasks and functions urgent in protection. Regency Konawe which is in Southeast Sulawesi Province has governance and authority alone for arrange the area myself, how then manage and deliver protection to product indication origin the area. Potency indication origin this could developed for protect products Public custom and community generally local no named with name individual, however name the place origin something product to be protected with indication origin. Of the benefits the above, see clear that protection indication origin urgent for developed in Indonesia.

II. METHODS

This research is library research (*Library research*), legal research that is carried out by examining library materials or secondary data. (Salim and ErliesSeptianaNurbani, 2013) Normative juridical research discusses the doctrines or principles in the science of law. Refers to legal norms contained in legislation and court decisions as well as legal norms that exist in society. Juridical approach (law seen as a norm or *das sollen*), Empirical approach (law as a social, cultural or *das sein* reality), because in this study primary data obtained from the field was used. So, the empirical juridical approach in this study means that in analyzing the problem it is carried out by combining legal materials (which are secondary data) with primary data obtained in the field, namely regarding the form of legal protection for Konawe rice as a product of geographical indications of origin in Konawe Regency.

III RESULTS AND DISCUSSION

Protection Law Our Rice As Product Potency Indication Geographical Origin in the District Konawe

A. Forms of Protection Through Local Regulations

Through explanations or points listed in Law Number 15 of 2001 concerning Trademarks and Regional Regulation Number 11 of 2022 concerning Protection of Sustainable Agricultural and Plantation Land in Konawe Regency. will provide an optimal picture of the extent to which the Regional Government follows up the empowerment process in the midst of the community, especially farmers, therefore to find out the points as stated in the laws and regional regulations are as follows:

a). Based on article 2 of the Regional Regulation on Protection of Sustainable Agricultural and Plantation Land, it is intended to provide legal certainty in the protection, regulation and administration of Sustainable Food Agriculture and Plantation Land in Konawe Regency. b). Based on article 3 Protection of Sustainable Agricultural and Plantation Land is organized based on the principles of: Benefit; Sustainability and consistency; Transparency and accountability; Togetherness and mutual cooperation; Participatory; Justice; Environmental sustainability and local wisdom; Decentralization; diversity; and Social and cultural. c). Pursuant to Article 4 Protection of Sustainable Agricultural and Plantation Land is organized with the objectives of: Protecting food-agriculture land and areas in a sustainable manner, Guaranteeing the availability of sustainable food-agricultural land, Realizing self-sufficiency, resilience, and food sovereignty. farmers and communities, increasing the protection and empowerment of farmers, increasing the provision of employment for a decent life, maintaining ecological balance, realizing agricultural revitalization.

Then if we connect it with Regent Regulation Number 18 of 2022 dated July 3, 2022, regarding the formation of the Inflation Control Team. It is very appropriate and supports the matters referred to in Law Number 15 of 2001 concerning Trademarks and Regional Regulation Number 11 of 2022 concerning Protection of Sustainable Agricultural and Plantation Land in Konawe Regency. In addition to the above, the Regent Regulation also

regulates economic issues and products that affect them, as well as providing protection to all interested parties, for example: farmers, traders, the government and the Konawe people themselves.

B. Protection Indication Geography According to Constitution Number 20 of 2016 concerning Brands and Indications Geography

Protection Indication Geographical according to Indonesian Legislation Indications Geographical arranged in Constitution Number 20 of 2016 concerning Brands and Indications Geography. In regulation of Trademark Law, Indication Geographical protected as something indicating sign area origin something goods, which because factor environment geographical including factor nature, factor human, or combination from second factor such, give characteristics and quality specific to the goods produced. As loaded in explanation Article 56 paragraph (1) of the Law Brand, protection Indication Geographical covers goods produced by nature, goods – results agriculture, yield craft hands; or results industry certain other. That is, Object indication geographical no restricted in a manner firm only form results nature, will but could covers results culture.

There are several chapter in the Trademark Law that regulates about Indication geographic. In Article 56 of the Trademark Law stated that: 1). Indication Geographical protected as something indicating sign – area origin something goods, which because factor environment geographical including factor nature, factor human, or combination from second factor such, give characteristics and quality specific to the goods produced. 2) Indication Geographical get protection after registered on base application submitted by: a) a representative institution people in the producing areas the goods in question, consisting of above: 1. The party making the effort goods which are results natural or riches nature; 2. Manufacturer goods results agriculture; 3). Maker goods craft hand or results industry; or 4. traders who sell goods such; b). given institution authority for it; or c). group consumer goods the.

1). Provision about announcement as meant in Article 21, Article 22, Article 23, Article 24 and Article 25 apply mutatis mutandis for announcement application registration Indication geographic. 2) Application registration Indication Geographical was rejected by the Directorate General if sign these: a. contrary with religious morality, decency, order general, or could trick or misleading Public about nature, characteristic, quality, origin source, manufacturing process, and/ or its use; b. no Fulfill condition for registered as Indication geographic. 3) Against denial as referred to in paragraph (4) can appealed to – Brand Appeal Commission. 4) Terms regarding internal appeals Article 29, Article 30, Article 31, Article 32, Article 33 and Article 34 apply mutatis mutandis for appeal request as referred to in paragraph (5). Indication Geographical registered get protection ongoing law. During characteristics and/ or quality to be base for he gave protection on Indication Geographical the still there. (8) When before or at the moment requested registration as Indication Geographical, a sign has wearwith faith either by others who do not entitled register according to provision as referred to paragraph (2), parties with the intention good the permanent could use sign the for period of 2 (two) years counted since sign the registered as Indication geographic. 6) Terms regarding procedures – registration Indication Geographical arranged more carry on with Regulation Government etiquette Indication Geography used in a manner without right the. For prevent more losses – big on the right side violated, the judge can instruct violator for stop activity manufacture, reproduction, as well instruct extermination etiquette Indication Geography used in a manner without right the. According to Miranda, Indications Geographical very value linkages historical from something product with the place origin. Indication Geographical potential for enabled as the "glue" of the product to area origin, so protected product could permanent give profit economical highest for producer original from area origin product the.

As method for balancing interest Among role personal individual with interest society, then the IPR system is included in it Indication Geographical based on principles justice, principle economics, principle culture and principles social. As part of IPR, Geographical Indication protect interest community / communal. According to Frederick Abbott, et.al., issue geographic indication have two function. First, function promotion product that has character certain brought – benefit to the place area product the manufactured or marketed. Geographical indication with thereby protect producers in the region to no use – legitimate (unauthorized) of goodwill created by quality product it by its competitors. Second, Geographical Indication is source information urgent for consumers in a very large market diverse in connection with origin, quality as well as reputation the product concerned.

Something protection law Geographic-indication by a group society, no means close opportunity for other party for use the relevant "region name" on products that can be indicated as product Geographical indication. Party third anybody permanent could Include "region name" on the mark trade, throughout authenticity product goods permanent could guaranteed in accordance with output. (Tatty A. Ramli and Yeti

Sumiyati, 2008) Of course just inclusion of “region name ” on the mark trade through Policy mechanism licence or permission use with pay a number money as royalty to _ holder rights . Holder right on Geographical indication could submit lawsuit to user geographical indication without right form application change loss and termination use as well as extermination etiquette Geographical indications used in a manner without right the. With thus, through protection Geographical indication, only product original generated _ from area that only entitled _ Include “ region name ” on the mark the trade .

Registration something potential product protected as product Geographical indications in Regulation Government Number 51 of 2007 concerning Indication Geographical set about procedures registration Geographical indication, intended for carry out in a manner thorough provision Article 56 paragraph (9) of the Law Number 15 of 2001 concerning Brand. Government regulations drafted by the government the expected could give utility form protection bringing law benefit economy for Public producer commodity / product commodities / goods in all regions of Indonesia that have distinctive qualities and characteristics that can be used for differentiate one thing with goods others who have category same. Party that can Becomes Applicant registration in Regulation government Indication Geographical are : The representative institution people in the producing areas the goods in question , consisting of above : the party who seeks goods which are results natural or riches nature ; producer goods results agriculture ; maker goods craft hand or results industry ; or selling merchant _ goods the . Awarded institution authority for it; or Group consumer goods the. According to Philipus M. Hadjon said that protection law for people there is two type form protection law that is first protection law preventive it means people given opportunity submit his opinion before the state was not will give right on brand to owner brand. this _ means without registration brand, someone no willgiven protection law by the state if the brand imitated by others.

Government Decree get definitive form that aims for avoid happening dispute. Second is protection law repressive aims _ resolve disputes.¹⁵ The link with GI protection, namely : 1). Protection law preventive characteristic for prevent, anticipate exists violation against IG then UUM Jo Rules Government The .51 of 2007 gives protection law good civil nor criminal 2). Protection law repressive aim for finish dispute, if occur misuse of IG by other parties then owner or holder right on IG is entitled submit lawsuit change make a loss to Court Commerce because violation right on IG or IG usage without right or oppose law.

Protection law preventive for GI Rice We are with method register it to Directorate General of Intellectual Property Rights, p this in accordance with theory the first Robert M. Sherwood IPR protection namely Reward Theory which has mean deep form confession to creation intellectuals who have generated by someone so that to inventor / creator or designer must given appreciation as balance on efforts creative in find or create works intellectual the . Protection to GI potential for enjoy benefit economy on potential IG is one exists from awards and recognition by the government on success Public Onion IG owner red Brebes, eggs salty Brebes, tea black Our Kaligua and rice are deep find or develop potential GI products.

C.registration Indication Geographical To Rice in the District Konawe

Provision about Indication Geographical from TRIPs, to be opener road for could he gave protection law with method registered products potentially Indication Geographical in each TRIPs member countries, including Indonesia. Terms of this TRIPs then explained to in Constitution Number 20 of 2016 concerning Brands and Indications Geography. Could said Settings about Indication Geographical still " riding " on the Act Brand. Provision about Indication Geographical only there are 3 articles that is Articles 56, 57 and 58 as well as 2 articles about Indication Origin that is Articles 59 and 60. Absolutely with exists matter the Public area the place producer product Indication Geographical must equate view about meaning urgent product rice We Indication Geographic , where protection Indication Geographical aim as protection to product , quality from product , value plus from something product and also as development rural.

because Indication Geographical is one component Right Riches Important intellectual in trade, in particular give protection to commodity related trade tightly with name area or the place origin product stuff, moreover potency economy from Rice alone enough big for community Public Regency Konawe as area producer rice the. Enactment optimally productindication geographical that will give mark plus and profit to the stakeholders involved like farmers and exporters. From the side consumer with exists certificate product Indication Geographical affixed to the package the product in question, means product the is original so that consumer will spared from goods false with a label on the product Indication Geographical the.

D. Protection Indication Geographical To Our Rice the Government Regency Konawe

Realize that product rice this is something Our product is unique with potential for get protection law. Government Regency Konawe in matter this Service Agriculture has take step for register our rice for get protection Indication geographic. Action taken government for follow up our rice show already exists awareness

Government Regency Konawe for protect product typical area they are, however it turns out in the registration process no easy and find a number of constraints.

Concern government to products typical area Konawe is also shown through action government in matter this Service Agriculture with coordinate with the teams extension workers and groups farmer as well as down live to society and review the production process Our rice so that the production process by the farmers no change or remove characteristic typical rice We have known by the public. So far this role government Regency Konawe enough active in inventory product typical Potential Konawe for obtain protection Indication Geographical and strive enforceability in society.

E. Form Protection Law Our Rice

Study this show that Protection Law Indication Geographical to rice we are in the District Konawe not yet materialized optimally. this caused among other things because lack of information and outreach to Public about enforcement protection law rice We Indication Geography, government rated slow in carry out the review process, as well provision about Indication Geographical in Indonesia that is felt still not enough clear ; Government Regency Konawe enough active role in push growth protection Indication Geographical to our rice as well products potentially Indication Geographical others in the District Konawe. this proven with has down hand directly by the local government for optimizing service process perunbulog to Indication Geographical rice us .

Although TRIPs regulates Indication Geographical as oneregime Right Riches Independent intellectuals, on the other hand regimes other ie Trademarks, Patents, Rights Create , Design Industrial, Layout Design Circuit Integrated, Information Secrets and Control to competitive practice in licence contract, will but TRIPs allows its member states add quantity nor quality protection. Therefore, after all provision existing standards in TRIPs adhered to, a country can enforce more protection wide or more tall to something object based on interest national. In matter protection to Indication Geographical, until moment Indonesia as one of the member countries of TRIPs chose for integrate protection to in system Brand. (Jened, 2007).

Though arrangements and conditions about Indication Geographical has made and agreed During centuries , however in reality daily level percentage registration Indication Geographical still very low if compared to with regime Right Riches Intellectual other like Right Copyrights , Marks , and Patents. Though thus, Indication Geographical have sufficient significance tall for Indonesia because a number of because , among others (Ayu , 2006). Protection law Indication geographic to be discussed in study this that is to Our Rice as product typical Regency Konawe arrived moment this not yet registered. Protection law defined as something effort for protect interest individual on position as human, have right for enjoy his dignity with give authority to him for Act in framework interests the. Protection law also means as possible effort ensure exists certainty law, so could give protection law to the parties concerned or who did action law (Hasanah, 2004)

Substance law about Indication Geographical very urgent in determine protection law to protected products Indication Geographical the. Importance substance law formulated by Bernard L. Tanya, Yoan N. Simanjuntak and Markus Y. Hage as rules of the game together (rule of game) that put law as element main in integration system. This is also supported by Steeman who justifies it that what formally forms a Public is reception general to normative rules of the game. Normative patterns this is what is necessary seen as necessary looked at as the most important element from a integrated structure. In framework Bredemeier this, law enabled for finish the conflicts that arise in community (Tanya et al, 2010).

Constitution Number 20 of 2016 concerning Brands and Indications Geography , because difference meaning and space scope both , consequently Public layman who doesn't understand about Right Riches Intellectual will consider that Indication Geographical same with brand but can use specific region names, even trend that occurs Public only know brand and no know about Indication Geographical same once . obscurity the could be one reason no growth protection law Indication Geography in the District Konawe and the regions others throughout Indonesia. because that government need make Act about Indication Geographic standingalone. this in accordance with condition formation something the laws put forward by A. Hamid S. Attamimi, namely something established laws must Fulfill principle clear goals (Indriati, 2007). Awareness law society in principle question also aspects enforcement law. Review ever conducted by Soerjono Soekarno about Awareness and Compliance Law in 1982, in obey in a manner aware conception law that has approved and implemented in a manner consequence in communication / relationship society, nation and state even politics (Saifullah, 2007).

No same with alternative settlement dispute, settlement dispute through arbitration is method settlement true dispute from beginning submitted to party third for give decision that is binding on the parties, whose

decision is final and has strength law permanent and binding on the parties (Miru , 2007). In the trading era free this, many countries are starting look for alternative products new to have uniqueness for traded. For that they start rummaged products based characteristics knowledge traditional knowledge from developing countries like Indonesia which has riches culture for acquired as well as developed more far, so product the capable dominate the world market without there is contribution against the state or Public owner product (Sudarmanto, 2012)

F. Through product label form Our Rice

Before We start talk about about the birth of the rice label We so We need know before history , origin suggestion rice konawe that official released year 200;At first the researchers in Balai Breeding and Feed Konawe Livestock (BPPT) , did assessment and research for make type varieties new fit _ developed with condition geography in the District Konawe , time that 's what it means Konawe including North Konawe, South Konawe and Konawe alone ;

The researchers there is researcher original from Unaaha, that is Mr. Idris Hadede, and now if not yet retired , maybe still in charge of BPPT Southeast Sulawesi in Puwatu .So rice konawe that origin suggestion the seeds from combination cross a number of varieties paddy superior already there is previously such as IR64, IR19 and others. Once done testing and selection in a manner National, come on in **rice konawe as varieties new 2001 with number registration : S3382-2D-PN-16-3** ; Name " rice ". konawe” it there is the hint from Ministry Agriculture , before 2015 , naming varieties new refers name river known local in the region that is , “ **rice konawe ” of name river “ Konaweha ”**, the name " rice ". mekongga” of name river mekongga in Kolaka, and so on . Then after 2015 no _ again used name river for naming varieties new;

variety “**Rice Konawe ” included seed superior varieties local** , that is existing varieties _ adapt with environment local , fine element haranya , acidity land already tested and matched with existing geography. Rice konawe this actually there is potency for can keep going developed because in a manner national has enter category rice superior .Based on the information you get from party Bulog , Chief Sexy Service The public , that " Our Rice " was launched by the Deputy Regent Konawe (Gusli Typhoon Sabara) on June 7, 2021, what does it mean is “ rice konawe " that , what similarities and differences. Our Rice ,that 's the product label officially issued riceBulog , that 's the valid packaging label in a manner national for all purchased riceBulog from Partners in the work area each . For example " Our Rice " which is managed in BulogKonawe, that is type rice whatever is produced in Konawe , then packed and purchased Bulog in Konawe that is " Our Rice ". So “ RiceKonawe ” referred to that 's " Our Rice ", the difference if rice konawe term commonly used society , meanwhile rice We that is official managed rice _ Well , the contents of the Bulog rice konawe .(Interview head sexy service public , public bulog Regency Konawe : Wednesday 26 October year 2022)

For rice at Bulog that's what we differentiate there is two function : 1). there 's such a thing as public service obligation rice ,this is what we stock for trading with Government for guard stability price , this is what is being warehoused ; 2). Then Rice Commercial , used rice _ for trading pure ; Quality managed rice _ there is by default , for purchase of incoming Partners at warehouse maximum moisture content 14%, grains broken maximum 20%, groats maximum of 2%, and intact figure at least 95%, so that goes at warehouse must passed the quality test good ; besides term " rice ". Konawe”, is is varieties paddy specifically, rice konawe that the main thing is all type rice grown , produced and processed in the Regency Konawe . Types varieties rice produced and developed in Konawe is as following, Varieties Inpari, Variety Ciharang, *Mekongga, Cisantana, Cigeulis, incl Konawe*

Difference managed rice from Konawe and sourced from outside is All from partners We identification there 's a label that we make and paste packaging before enter warehouse so that could distinguished and seen from each label packaging rice , then from that will Also look at this the label describes from partners and which areas, benefits so no mixed with nonpartner packages work. Difference characteristics rice Konawe with rice others with combination of flavors that is all originating rice from We guard Bulog quality rice from partner , already no there is again rice quality badly managed ; Rice from Packaged Konawe with the label of Our Rice, that is enter structured premium quality fluffier , have rate amylose low and amylopectin tall as well as free from bleach , preservatives and fragrances . Price Purchase The buying government from partners at warehouse Bulog the price is Rp. 8,300, Legal basis Price Purchase Government that based on Regulation of the Minister of Trade Number : 24 of 2020 concerning Determination Price Purchase Government for Grain and Rice . While for sale no can more from HET Price Retail Highest. that determination from center in matter this Ministry Trade , this apply in a manner national for the entire territory of the province , which was made base until now still refers to Regulation of the Minister of Trade Number : 57/M-DAG/PER/8/2017 concerning determination price highest retail rice , for the Sulawesi region, Rice HET Medium quality of Rp . 9,450, meanwhile for premium rice Rp . 12,800.

Types price rice issued by the party PrumBulog is as following: 1) Price Premium rice per 5 kg is IDR 50,000, while 2). Packed medium rice per 5 kg of Rp. 47,000, Territories made the place distribution or distribution Rice Konawe , Beside for Konawe area consumption own , distribution rice konawe to outside area such as Kendari, Bau-Bau , Buton , Raha , Muna , Wakatobi , to other provinces as well to Bitung Central Sulawesi , to Manado, also to East Nusa Tenggara . Steps taken _ party blog for maintain availability rice we, we do warehouse shelter in Wawotobi , so we bought it rice from farmer through partners collector , then We watch keep going existing stock at warehouse for distributed to partners a shopkeeper or to government in accordance request .

Research results this if analyzed according to Constitution Number 18 of 2012 concerning Food , then product rice we are in the District Konawe, in particular Rice Konawe have potency for give very contribution qualified for made as product featured , by him that product Rice Konawe this must quick got a valid label from Government specifically The Director General of the Ministry of Law and Human Rights is in charge specifically for it, because will very impact to growth economy in the future come . Party government area specifically Prune Bulog must give more support maximum to Rice Konaweno only buy results from processing course, but must give protection more laws sure , with method thereby farmers Rice Konawe in a manner general will can promoted on every social media and easily accessible by the public in a manner thorough as well as must make an effort for register it to the Ministry of Law and Human Rights.

IV. CONCLUSION

Form Protection Law Rice Konawe As Product Indication Geographical Origin in the District Konawe , according to study Constitution Number 20 of 2016 concerning Brands and Indications geography if We hook up with Regional Regulation Number 11 of 2020 concerning Protection Land Sustainable Agriculture and Plantation districts Konawe and Regulations Regent Number 18 of 2022 Concerning Formation of the Control Team Inflation as well as Regulation Regent Number 24 of 2021 Concerning Provision Rice for ASN in Konawe , not yet appropriate and useful for Public especially farmers _ as described as following ; Protection Law Indication Geographical to our rice in the district Konawe not yet materialized optimally . this caused among other things because lack of information and outreach to Public about registration Indication Geographical, as well slow government in do management of the registration process and conditions about Indication Geographical in Indonesia that is felt still not enough clear. Start active Government Regency Konawe in push growth protection Indication Geographical to rice pulutmandoti nor products potentially Indication Geographical others in the District Konawe .
